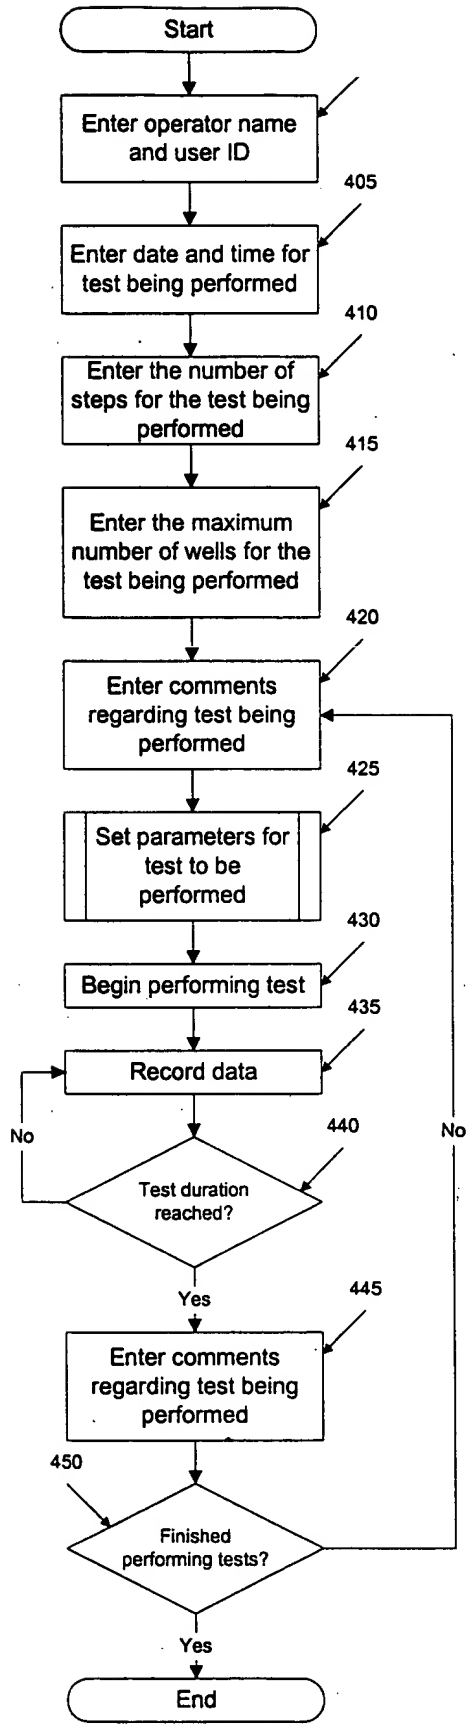
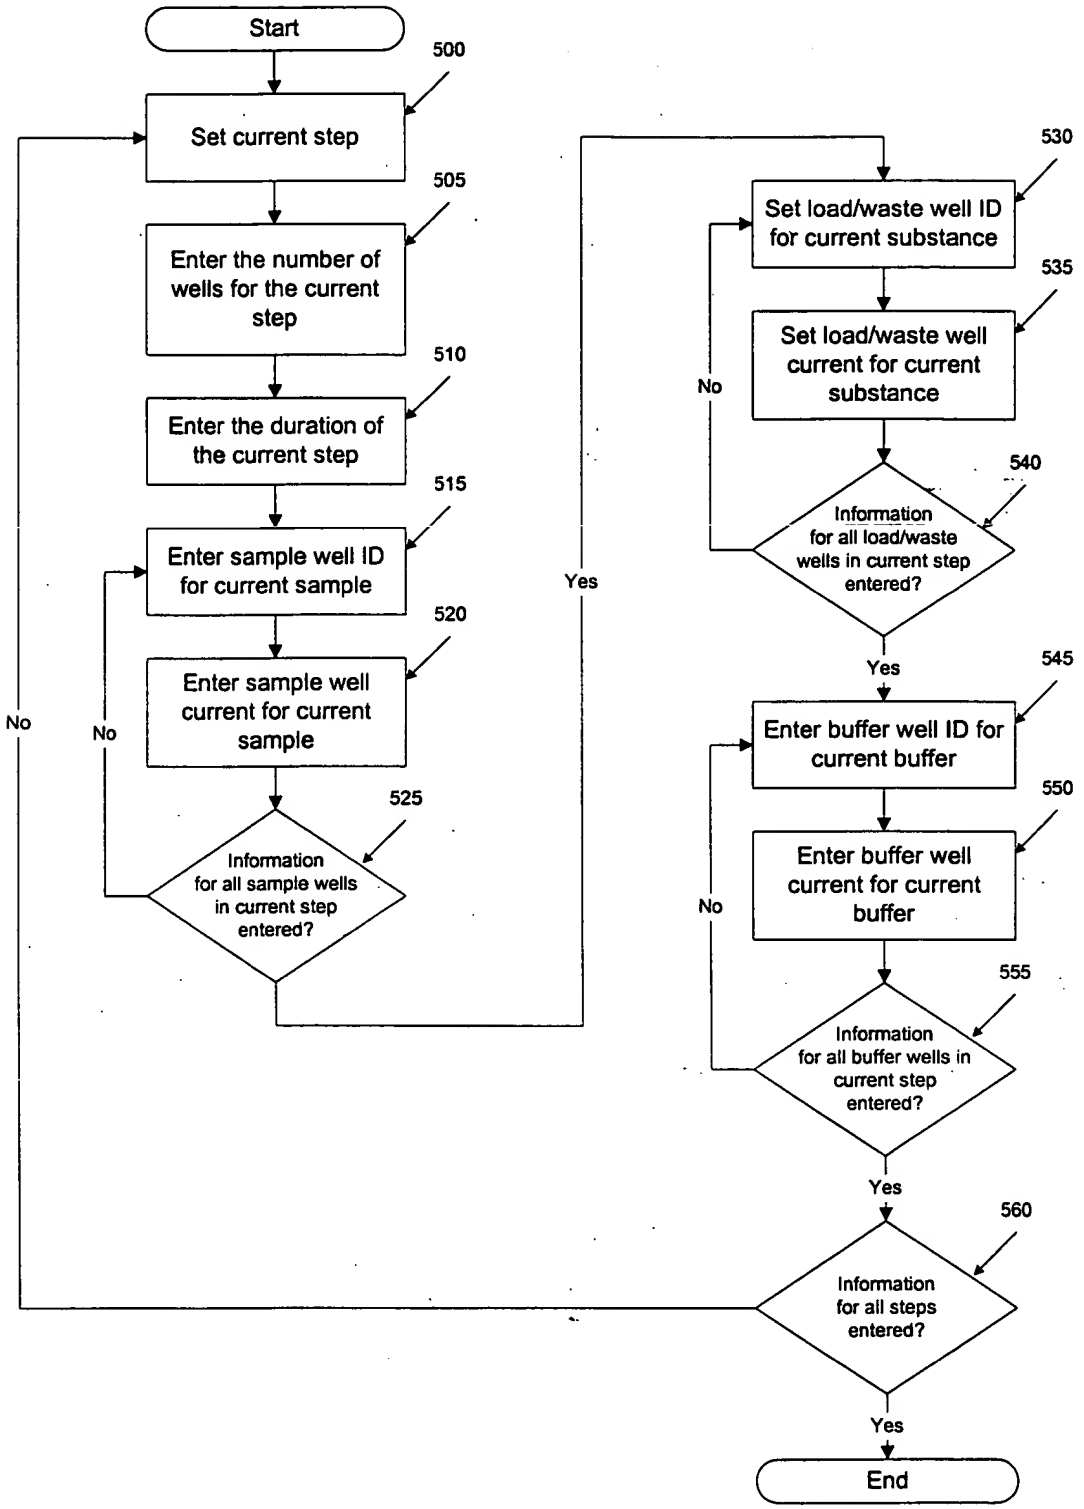
Step Record 300
Step Number Field 310
Number of Wells Field 320
Step Duration Field 330
Sample Well ID Field 340(1)
Sample Current Field 341(1)
Sample Well ID Field 340(N)
Sample Current Field 341(N)
Load/Waste Well ID Field 350(1)
Load/Waste Current Field 351(1)
Load/Waste Well ID Field 350(N)
Load/Waste Current Field 351(N)
Buffer Well ID Field 360(1)
Buffer Current Field 361(1)
Buffer Well ID Field 360(N)
Buffer Current Field 361(N)

Fig. 3



Start
Enter operator name and user ID
405
Enter date and time for test being performed
410
Enter the number of steps for the test being performed
415
Enter the maximum number of wells for the test being performed
420
Enter comments regarding test being performed
425
Set parameters for test to be performed
430
Begin performing test
435
Record data
No
440
Test duration reached?
No
Yes
445
Enter comments regarding test being performed
450
Finished performing tests?
Yes
End

Fig. 4



Start
500
Set current step
505
Enter the number of wells for the current step
510
Enter the duration of the current step
515
Enter sample well ID for current sample
520
Enter sample well current for current sample
525
Information for all sample wells in current step entered?
No
No
Yes
530
Set load/waste well ID for current substance
535
Set load/waste well current for current substance
No
540
Information for all load/waste wells in current step entered?
Yes
545
Enter buffer well ID for current buffer
550
Enter buffer well current for current buffer
No
555
Information for all buffer wells in current step entered?
Yes
560
Information for all steps entered?
Yes
End

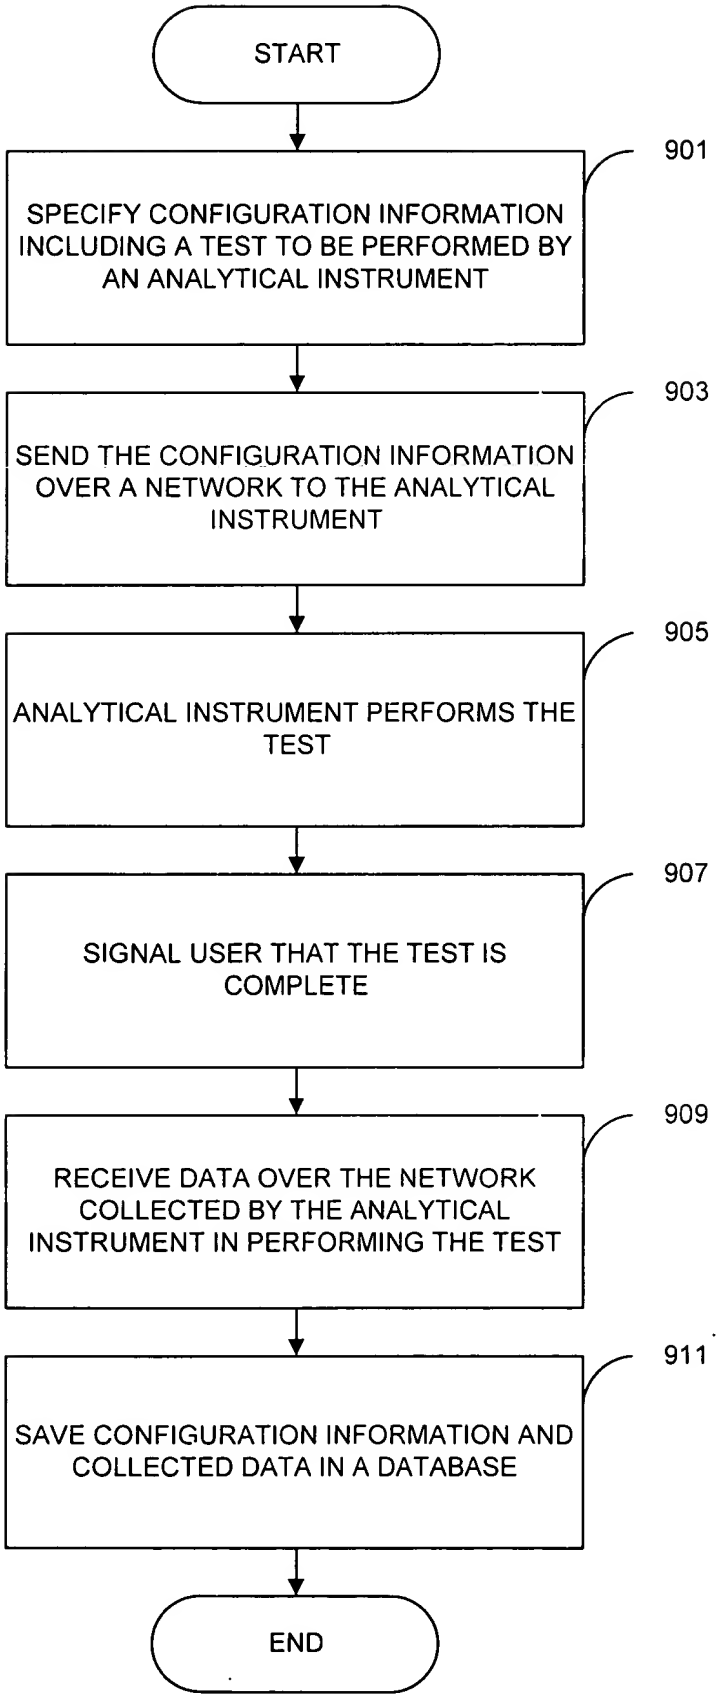
Fig. 1



START
901
SPECIFY CONFIGURATION INFORMATION INCLUDING A TEST TO BE PERFORMED BY AN ANALYTICAL INSTRUMENT
903
SEND THE CONFIGURATION INFORMATION OVER A NETWORK TO THE ANALYTICAL INSTRUMENT
905
ANALYTICAL INSTRUMENT PERFORMS THE TEST
907
SIGNAL USER THAT THE TEST IS COMPLETE
909
RECEIVE DATA OVER THE NETWORK COLLECTED BY THE ANALYTICAL INSTRUMENT IN PERFORMING THE TEST
911
SAVE CONFIGURATION INFORMATION AND COLLECTED DATA IN A DATABASE
END
